FAST - SIMPLE - SECURE

Register and create your Energy ID on **leneda.lu**

In order to allow everyone to consult and analyze their electricity and gas data, and to simplify all administrative procedures related to energy, the government has mandated Creos to launch Leneda, the national energy data platform.

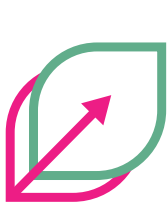

Create your personal Energy ID today on leneda.lu - **from spring 2025 onwards, the Energy ID will be necessary.**

 **Leneda**
Luxembourg energy platform

Why create your Energy ID on leneda.lu ?

The Energy ID is indispensable for all energy-related transactions, such as :

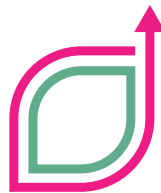

when
changing
energy
supplier

during
a private or
professional
move

if you decide to
give access
to your energy
data to a
third party

if you produce
your own electrical
energy and decide
to consume it or
share it

With your Energy ID, you have access to the national energy data platform leneda.lu, via which **you can consult and analyze your electricity and gas data, and potentially water and heat data in the future.**

How to create your Energy ID easily in just a few clicks?

1. Go to leneda.lu
2. Create your account
3. Receive your Energy ID and consult your energy data
